INTRODUCTION

At Modern Surfaces Contracting Company "SURFACE360" we strive to meet the requirements of our customers with high quality craftsmanship specializing in architectural construction and woodwork. Surface360 provides services for complete turnkey projects including structure and both exterior and interior finishing based on the client's tastes. We strive to incorporate different styles and current trends in our construction and woodwork. In addition to incorporating client's vision and the need to create distinctive and unique projects.

Our experienced team of engineers, architects and carpenters, along with the use of modern technologies allow us to deliver unique services to our clients and the market.

1. COMPANY OVERVIEW

Surface 360 is a construction company that was established in 2006. We mainly focus on structural work, finishing and MEP of high-end homes, offices and commercial spaces. As part of our core strength we rely on our large woodwork facilities in Rabigh (4000m²) and the cumulative experience for our team which consist of engineers, architects, foremen and experienced labor.

Our reputation in the market was achieved as a result of satisfied customers and exceptional executed projects that meet the demands of the client.

In terms of finance and administration Surface360 is sponsored by the Shobokshi Group. The company is working independently under the supervision of qualified teams from Engineers, Foremen, Skilled Workers and Labor force. Including the help of our sister companies general agencies and Contracting (GAC) and Electrical Works and Maintenance (EWM).

2. JOINERY DIVISION
